This is a collection of mostly journalistic writings by Camus about Algeria written between 1939 and 1958. Camus was part of the French settler community in Algeria, but he was not part of the privileged elite as he came from a working class background. He felt both French and Algerian. The settler community was both long established and numerous.

Albert Camus' most political works: an exploration of his commitment to Algeria.

A fascinating and comprehensive history, 'Demanding the Impossible' is a challenging and thought-provoking exploration of anarchist ideas and actions from ancient times to the present day.

This book serves as a fascinating guide to 100 war films from 1930 to the present. Readers interested in war movies will learn surprising anecdotes about these films and will have all their questions about the films' historical accuracy answered. • Applies an internationalist perspective to the war film through entries from countries including Britain, France, Germany, Russia, Australia, Japan, Poland, Finland, and Latvia • Defines great war films as the most artistically accomplished, politically subversive, and thought-provoking, not merely as the most popular or commercially successful, and is therefore a relevant reference for students and film and history buffs • Provides clearly written and informative histories of the films themselves as well as of the cultural context surrounding the making and reception of them • Recounts critical controversies and analyzes the ideological biases implicit in these films in its examination of how the films shaped their source material and what they included, distorted, and added or left out

'This book provides an intelligent & perceptive reading of Vargas Llosa's narratives; it will become a standard reference for understanding the Peruvian writer's works. . . '--Choice.

This book describes and evaluates the usefulness of a recently developed lexicographical hybrid: the encyclopedic learner's dictionary (ELD). First, the ELD is analysed from a typological perspective. Two encyclopedic learners' dictionaries are dissected

and compared, and a checklist of ELD design features is drawn up. A survey of previous user-based studies is then provided, followed by a description of the questionnaire-based methodology used in this user-centred investigation. Next, a critical analysis of each ELD design feature is provided. Finally, the implications of this research for the future production of ELDs are presented as a checklist of recommendations.

Addicted to War is a hard-hitting expose of the world's most powerful and destructive military force. It asks the question, why has the United States been in more recent wars than any other country. In answering, this illustrated guide documents those who benefit from these military escapades, those who pay and those who die. Updated to include the war on Iraq. Addicted to War is a must read for all Americans who are concerned with understanding the true nature of US foreign policy and how it affects us here at home' - Martin Sheen'

Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to content. Whether you want to set up an enterprise-wide Internet or intranet search engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists. Showing you how to optimize

full-text query performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

A comprehensive practical guide that walks you through the multiple stages of data management in enterprise and gives you numerous design patterns with appropriate code examples to solve frequent problems in each of these stages. The chapters are organized to mimic the sequential data flow evidenced in Analytics platforms, but they can also be read independently to solve a particular group of problems in the Big Data life cycle. If you are an experienced developer who is already familiar with Pig and is looking for a use case standpoint where they can relate to the problems of data ingestion, profiling, cleansing, transforming, and egressing data encountered in the enterprises. Knowledge of Hadoop and Pig is necessary for readers to grasp the intricacies of Pig design patterns better.

Presents an alphabetical listing of major and minor words, each followed by a selection of synonyms and antonyms, divided by part of speech; and includes a reverse dictionary component.

Published posthumously, the text presents Sartre's ontology of truth in terms of freedom, action, and bad faith.
