aid in the diagnosis. This book provides the reader with a systematic evaluation plan for these cases, written and edited by leaders in the field. *A Case-Based Guide to Eye Pain* is written for both ophthalmologists and neuro-ophthalmologists since there are not enough neuro-ophthalmologists to treat the number of patients with unexplained ocular pain and general ophthalmologists are having to take on the diagnosis and treatment of these patients. Organized in an easy-to-use manner, each case covers the following key elements: the chief complaint, history of the present illness, the examination, assessment and plan, follow-up, alternate perspective, summary points, and key references. Tables are also available to help the reader rapidly sort through cases that may apply to a sign, symptom, historical feature, diagnostic test or treatment option. This allows the

The third Antichrist is here, just as Nostradamus predicted—and Adam Sabir is the only man who can prevent hell from reigning on earth, in the final Nostradamus installment. Five centuries ago, Nostradamus wrote of three Antichrists. Two, Napoleon and Hitler, have already bathed the world in blood—but it is the third who will bring the Apocalypse. And his time has come. In the mountains of Moldova, a ruthless tyrant is hailed as the Second Coming of Christ. In the gypsy camps of Romania, a woman's unborn child could change the course of the world. In a polluted sinkhole in Mexico,

four siblings pledge themselves to vengeance. Only scholar Adam Sabir, guardian of the lost prophecies of Nostradamus, knows what will happen when these destinies collide. He alone has decoded the identity of the Third Antichrist. He alone knows the one who can prevent this tyrant's rise. The fate of the world is in his hands. The countdown to Armageddon has begun.

Prepare to encounter your mind in a radically new way as Ken Wilber introduces Integral Mindfulness, a meditative approach based on Integral Theory and Practice. This leading-edge technique combines, for the first time in history, the ancient paths of meditation and mindfulness—or Waking Up—with modern research into psychological development and human evolution—Growing Up—resulting in a

complete and powerfully effective method of personal transformation. Integral Meditation focuses attention on the inner "maps" we use to navigate life—in relationships, at work and study, in play, in just about everything we do.

Mindfulness is used to unearth these unconscious maps, then uproot them so that we can substitute happier and healthier perspectives. With experiential exercises, guided meditation instructions, and tools to identify the individual's own greatest potential, this book points the way to realizing our Supreme Identity—and to finding the reason why each of us has come into being: to embody and express in the world our unique perspective of Spirit.

NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world, but the ageless truths of life, like

many of the earth's greatest thinkers, have usually been clothed in shabby garments. The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages. To bring about this coalescence of Beauty and Truth has proved most costly, but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure.

Synesius' essay *De insomniis* ('On Dreams') inquires into the meaning and importance of dreams for human beings and treats themes - most of all the relationship of humans to higher spheres -, which for religiously- and philosophically-minded people are still important today.
