The reputation of Buick cars is one that has been formed over the course of many years. Although many of the early American cars were very much in the category of "dirt-track brawler", being the kind of vehicle that could hold its own in a fight but not built for luxury, General Motors spotted a gap in the market for something that could boast a little bit more quality, and the Buick brand ...

Buick actually makes most of their sales in China, being one of the most commonly driven brands in the country. This leads many owners to consult a Buick repair manual in the event of any issues with the vehicle. Buick changed the way manufacturers view engines by being the first automobile company to use overhead valve engines.
