An alternative, uniquely Christian response to the growing global challenges of deep religious difference In the last fifty years, millions of Muslims have migrated to Europe and North America. Their arrival has ignited a series of fierce public debates on both sides of the Atlantic about religious freedom and tolerance, terrorism and security, gender and race, and much more. How can Christians best respond to this situation? In this book theologian and ethicist Matthew Kaemingk offers a thought-provoking Christian perspective on the growing debates over Muslim presence in the West. Rejecting both fearful nationalism and romantic multiculturalism, Kaemingk makes the case for a third way—a Christian pluralism that is committed to both the historic Christian faith and the public rights, dignity, and freedom of Islam.

A fresh response to the problem of illegal immigration in the United States through the context of Christian theology.

The Reformed tradition in the twenty-first century is increasingly diverse, dynamic, and deeply engaged in a wide variety of global and public issues, from the arts and business to immigration and race to poetry and politics. This book brings together the insights of a diverse group of leading Reformed thinkers—including Nicholas Wolterstorff, Makoto Fujimura, Bruce Ashford, John Witvliet, Ruben Rosario Rodriguez, and James K. A. Smith—to offer a contemporary vision of the depth and diversity of the Reformed faith and its global public impact.

This volume gathers together expertise from academics and practitioners in order to investigate the interconnections and interactions between religion, migration and the refugee regime.

"Despite the worldwide dramatic spread of religious-based discriminations, persecutions, and conflicts, both official data and academic literature have underestimated their role as a root cause of contemporary migrations. This multidisciplinary study aims to overcome this gap. Through an unprecedented collection of theoretical analysis and original empirical evidence, the book provides unique data and insights on the role of religion in the trajectories of asylum seekers and migrants - from the analysis of the religious geography of sending countries to the role of spirituality as a factor of resilience and adaptation. By enhancing both academic and political debate on these issues, the book offers the possibility of regaining awareness of the close link between religious freedom and the quality of democracy"--

Considering its prominent role in many faith traditions, surprisingly little has been written about hospitality within the context of religion, particularly Islam. In her new book, Mona Siddiqui, a well-known media commentator, makes the first major contribution to the understanding of hospitality both within Islam and beyond. She explores and compares teachings within the various Muslim traditions over the centuries, while also drawing on materials as diverse as Islamic belles lettres, Christian reflections on almsgiving and charity, and Islamic and Western feminist writings on gender issues. Applying a more theological approach to the idea of mercy as a fundamental basis for human relationships, this book will appeal to a wide audience, particularly readers interested in Islam, ethics, and religious studies.

In *Christianity and Conversion among Migrants*, Darren Carlson explores the faith, beliefs, and practices of migrants and refugees as well as the Christian organizations serving them between 2014-2018 in Athens, Greece.

Incisive insights into contemporary pop culture and its apocalyptic bent *The world is going to hell*. So begins this book, pointing to the prevalence of apocalypse — cataclysmic destruction and nightmarish end-of-the-world scenarios — in contemporary entertainment. In *How to Survive the Apocalypse* Robert Joustra and Alissa Wilkinson examine a number of popular stories — from the Cylons in *Battlestar Galactica* to the purging of innocence in *Game of Thrones* to the hordes of zombies in *The Walking Dead* — and argue that such apocalyptic stories reveal a lot about us here and now, about how we conceive of our life together, including some of our deepest tensions and anxieties. Besides analyzing the dystopian shift in popular culture, Joustra and Wilkinson also suggest how Christians can live faithfully and with integrity in such a cultural context.
