jsTree how to change ajax url and reload data - Stack Overflow

```
function selectLeftNavNode(node) {  
    $('#demo').jstree('deselect_all'); $('#demo').jstree('select_node',  
    '#node_' + node); } the problem we noticed recently that if the page  
recently edited is deep within the tree more specifically in the  
section that has not been loaded yet it will fail. this is why I decided  
to make ajax request to the server ...
```
