---

Immunology of the Joint and Eye - 1st Edition - M. Zierhut ...

The eye may have some immunoregulatory advantages over the joint through being an immunologically privileged site. While the anterior segment of the eye has long been recognized as having 'immunosuppressive' properties, resident cells in the posterior segment also seem to have immunosuppressive effects.

## Immunology Joint Eye

Signs of some eye diseases, such as glaucoma and age-related macular degeneration (AMD), are present before you might notice symptoms. Annual eye exams and visual screening tests can make the difference in catching an eye condition before vision loss progresses. Montefiore has eight different eye care locations to meet all of your vision needs.
