The New Cambridge Companion to William Faulkner offers contemporary readers a sample of innovative approaches to interpreting and appreciating William Faulkner, who continues to inspire passionate readership worldwide. The essays here address a variety of topics in Faulkner's fiction, such as its reflection of the concurrent emergence of cinema, social inequality and rights movements, modern ways of imagining sexual identity and behavior, the South's history as a plantation economy and society, and the persistent effects of traumatic cultural and personal experience. This new Companion provides an introduction to the fresh ways Faulkner is being read in the twenty-first century, and bears witness to his continued importance as an American and world writer.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
