O' Bannon decided there was a principle at stake... O' Bannon gave the movement to reform college sports...passion and purpose, animated by righteous indignation. ” —Jeremy Schaap, ESPN journalist and New York Times bestselling author In 2009, Ed O' Bannon, once a star for the 1995 NCAA Champion UCLA Bruins and a first-round NBA draft pick, thought he 'd made peace with the NCAA ' s exploitive system of “ amateurism. ” College athletes generated huge profits, yet—training nearly full-time, forced to tailor coursework around sports, often pawns in corrupt investigations—they saw little from those riches other than revocable scholarships and miniscule chances of going pro. Still, that was all in O' Bannon ' s past...until he saw the video game NCAA Basketball 09. As avatars of their college selves—their likenesses, achievements, and playing styles—O' Bannon and his teammates were still making money for the NCAA. So, when asked to fight the system for players past, present, and future—and seeking no personal financial reward, but rather the chance to make college sports more fair—he agreed to be the face of what became a landmark class-action lawsuit. Court Justice brings readers to the front lines of a critical battle in the long fight for players ' rights while also offering O' Bannon ' s unique perspective on today ' s NCAA recruiting scandals. From the basketball court to the court of law facing NCAA executives, athletic directors, and “ expert ” witnesses; and finally to his innovative ideas for reform, O' Bannon breaks down history ' s most important victory yet against the inequitable model of multi-billion-dollar “ amateur ” sports.

Zugleich hat eine Verlagerung von Umsatz und Wertschöpfung in neue Wachstumsmärkte eingesetzt, weshalb die Automobilunternehmen Strategien, Organisationsstrukturen sowie Technologien anpassen müssen. Diese Herausforderungen liegen an der Schnittstelle von „Automotive Engineering & Management“, d.h. von Technik und Betriebswirtschaft. Das Buch enthält die Beiträge einer Ringvorlesung im Sommersemester 2012 an der Universität Duisburg-Essen.

Focusing on a lucrative and increasingly important area of biomedicine, the Biomaterials Fabrication and Processing Handbook brings together various biomaterials production and processing aspects, including tissue engineering scaffold materials, drug delivery systems, nanobiomaterials, and biosensors. With contributions from renowned international experts and extensive reference lists in each chapter, the volume provides detailed, practical information to produce and use biomaterials. The different facets of biomaterials technology are split into four sections in the book— Part I The development of new materials and devices capable of interacting specifically with biological tissues and the preparation of scaffolds using materials with appropriate composition and structure Part II The necessary materials to create a drug delivery system capable of controlled release and the incorporation of drug reservoirs into implantable devices for sustained controlled release Part III The significant role nanotechnology plays in the biomedical and biotechnology fields Part IV More biomaterials, including synthetic and natural degradable polymeric biomaterials, electroactive

The present book includes a set of selected papers from the fourth “ International Conference on Informatics in Control Automation and Robotics ” (ICINCO 2009), held in Milan, Italy, from 2 to 5 July 2009. The conference was organized in three simultaneous tracks: “ Intelligent Control Systems and Optimization ”, “ Robotics and Automation ” and “ Systems Modeling, Signal Processing and Control ”. The book is based on the same structure. ICINCO received 365 paper submissions, not including those of workshops, from 55 countries, in all continents. After a double blind paper review performed by the Program Committee only 34 submissions were accepted as full papers and thus selected for oral presentation, leading to a full paper acceptance ratio of 9%. Additional papers were accepted as short papers and posters. A further refinement was made after the conference, based also

on the assessment of presentation quality, so that this book includes the extended and revised versions of the very best papers of ICINCO 2009. Commitment to high quality standards is a major concern of ICINCO that will be maintained in the next editions of this conference, including not only the stringent paper acceptance ratios but also the quality of the program committee, keynote lectures, workshops and logistics.

**NEW YORK TIMES BESTSELLER** • An inspiring personal story of redemption, second chances, and the transformative power within us all, from the founder and CEO of the nonprofit charity: water. At 28 years old, Scott Harrison had it all. A top nightclub promoter in New York City, his life was an endless cycle of drugs, booze, models—repeat. But 10 years in, desperately unhappy and morally bankrupt, he asked himself, "What would the exact opposite of my life look like?" Walking away from everything, Harrison spent the next 16 months on a hospital ship in West Africa and discovered his true calling. In 2006, with no money and less than no experience, Harrison founded charity: water. Today, his organization has raised over \$400 million to bring clean drinking water to more than 10 million people around the globe. In *Thirst*, Harrison recounts the twists and turns that built charity: water into one of the most trusted and admired nonprofits in the world. Renowned for its 100% donation model, bold storytelling, imaginative branding, and radical commitment to transparency, charity: water has disrupted how social entrepreneurs work while inspiring millions of people to join its mission of bringing clean water to everyone on the planet within our lifetime.
