Combining and updating the renowned Rigger's Apprentice and Rigger's Locker, meets the changing face of modern materials and technology while remaining true to rigging's best traditional principles and practices. It's much more than a knot book, though the knots a sailor needs are all here. It's a book for sailors who want the satisfaction and hard-cash savings of stepping their own masts, inspecting and maintaining their own rigs, and turning their own tailsplines and wire eyesplines. It is for boatowners who want to replace an entire gang of rigging themselves--measuring, choosing appropriate wire, turning soft eyes, leathering, and serving. It is for bluewater voyagers who want to feel secure in the knowledge that, should a shroud carry away far at sea, they will be able to repair it. The Complete Rigger's Apprentice is also a free-roaming collection of useful ideas and tips on everything from supplementing winches with block and tackle, to rigging snubbers at anchor, to using pantyhose for an emergency fanbelt. In short, it's the definitive book on the art of rigging, written by its most entertaining practitioner.

The Rigger's Apprentice is not just another knot book, even though the knots a sailor needs are all here. Nor is it a survey of rigs, for the subject is rigging itself: its

principles and procedures. Seizings, lashings, double sheet bends, grommets, wire splices, handybillies--all these are traditional techniques whose usefulness is valid even on modern, high-tech boats. Toss tells how to replace an entire gang of rigging--measuring, choosing appropriate wire, turning soft eyes, leathering, and serving. And if you are a bluewater voyager, you'll feel secure in the knowledge that, should a shroud carry away far at sea, you'll be able to repair it.

This is the Only Complete Arban for Trombone & Euphonium. There has never been a truly complete Arban for trombone or euphonium until now. Previous editions did not include all of Arban's studies. This benchmark edition is complete and comprehensive for both trombone and euphonium. Joseph Alessi (principal trombone of the New York Philharmonic) has written all the trombone text for this edition. His guidance in applying Arban's (trumpet) techniques to the trombone puts this book into a class by itself. Dr. Brian Bowman wrote the text for euphonium. As a teacher and virtuoso performer, Dr. Bowman is uniquely qualified to transfer Arban's techniques to the euphonium.
