The new FT-818 incorporates all the many basic and attractive features of the ever-popular FT-817ND while providing upgrades desired by many existing owners. The FT-818 provides 6W of solid output power with an external DC power source. The supplied Ni-MH battery pack (SBR-32MH) has been upgraded to now provide larger battery capacity - 9.6v/1900mAh.

Have you tried your 818 on  
batteries? Usually, it's  
better to use a portable SW  
radio with batteries anyway.  
Wall warts (the AC adapters  
used for supplying radios  
with DC power) often run  
over-voltage, which won't  
necessarily harm the radio,  
but isn't good for it,  
either. 818's run for a long  
time on a set of batteries.
