I Am We is a two-way book of twenty short stories, split into 10 pairs, wherein each half of a pair is presented on either half of the book. Each title has a corresponding mate on the other side. The reader is therefore presented with ten individual stories, which are told in two entirely different ways. One half of the book represents the individual, and paints its stories within a surreal dreamscape, while the other half of the book symbolizes the collective and presents its stories in hard reality. From birth to friendship, love, ambition, prejudice, spirituality and the afterlife, I Am We traces the journey an individual takes in life, and contrasts it through the twin perspectives of fantasy and reality.
