Taylor Swift is the self-titled debut studio album by American singer-songwriter Taylor Swift, released on October 24, 2006, by Big Machine Records. Swift was 16 years old the year of the album's release and wrote its songs during her freshman year of high school. Swift has writing credits on all of the album's songs, including those co-written with Liz Rose.

She has become one of the bestselling musicians of all time. But in the more than fifteen years she's been making music, she has also amassed enough power to buck the norms of an industry notorious for controlling the images of its often very young female artists. She's stood up for herself and for other artists, championing their rights to fair royalties, and inspired tens of thousands of fans to register to vote. Swift's achievements have earned her spots on both Forbes's Most Powerful Women and Time's 100 Most Influential People lists. Now, for the first time, you can find her most inspirational, thought-provoking quotes in one place.

whale. It was wearing a GoPro camera that had a belt with a label on the inside that read "Equipment of St. Petersburg." The whale was most likely an animal spy, which was trained by the Russian government. Sounds crazy, right? Not at all. The idea of using animals as government operatives isn't a new one. In fact, over 2,000 years ago the Romans were using pigeons to send secret military messages to each other. Pigeons were so effective that they were still being used during World War II. The United Kingdom alone used about 250,000 pigeons for a number of secret missions, such as communicating with their human spies behind enemy lines. Since then, the world's militaries have thought of all sorts of ways to

use animals to gather or pass secret information on—some more successful than others. Cats are known to have excellent poker faces. Because of this, they make perfect spies. That's what the CIA thought when it placed listening instruments inside cats' ears in the 1960s. However, the project ended after its top spy cat was run over by a taxi while staking out the

Russian embassy in Washington D.C. The United States also developed a way to control insects with wires joined to their nerves. These spy insects would enter the enemy's base to listen for secrets. Now, using modern technology, the US military has changed its focus to creating spying machines that are half robot, half insect. In the 1960s, the US Navy started training dolphins and sea lions to recover lost objects and detect mines in the ocean. They turned out to be perfect for the job—over 100 of them still work for the US military today! Throughout history, militaries have used animals to gain the upper hand over their enemies. The Viet Nam War ended nearly half a century ago. This book--part history, part travelogue--reveals the war's legacy, still very much alive, in the places where it was fought and in the memories and memorials of those who survived it. The chronological story is told through the exploration of culture, history, popular music, and the countries that were major players: North and South Viet Nam, Laos, Cambodia, Australia and the United States. The author traverses significant sites like Dien Bien Phu--where French colonialism ended and U.S.

industry, showing how it marshaled childishness as a key element in legitimizing children's participation in public culture. The industry played on long-standing gendered and racialized constructions of childhood as feminine and white—both central markers of innocence and childishness. In addition to Kidz Bop, High School Musical, and the Disney Channel's music programs, Bickford examines Taylor Swift in relation to girlhood and whiteness, Justin Bieber's childish immaturity, and Miley Cyrus/Hannah Montana and postfeminist discourses of work-life balance. In outlining how tween pop imagined and positioned childhood as both intimate and public as well as a cultural identity to be marketed to, Bickford
