those materials.

Sizing is used for oil-based surface preparation for gilding (sometimes called mordant in this context). It is used by painters and artists to prepare paper and textile surfaces for some art techniques.

Sizing - Wikipedia

Sizing is the process

Acces PDF

Textile Sizing

of giving a protective coating on the warp yarn to minimize yarn breakage during weaving. Sizing is the most important operation in preparing warp yarn for weaving especially with cotton yarn. The smallest error in sizing process may be very harmful.

Acces PDF

Textile Sizing

Textile sizing chemicals strengthen the yarns by 10% to 20%. Different type of sizing chemicals such as antistats, antisticks, binders, cleaning agents, defoamers, dispersants, lubricants, etc. are used to avoid breakage during weaving. Depending
